How did the ATA token come ?

We provide research and investigation regarding the creation of platforms for cooperation and the development and launch of financial, industrial, and new technology projects. And we welcomed digital currencies for further development and better access for users, but to control these projects and we should not move in rigid and traditional financial structures.

mentalities, we are freed to find new ways to solve problems and communicate in the world by the commodity of time, community-run projects more than

Just a change of pace, they are practicing radical acceptance of others.

When success depends on the joint power of people

Collectively, we are forced to change our perspective with those around us.

How to use digital ATA for the development and growth of the industry?

Many users only use digital currency to earn money through the fluctuations obtained by using the behavioral science of a currency, and the product of this type of use of this platform is the loss of some ignorant users and beneficial users, but the **ATA** token is a little bit of this story.

It is further away and most of it will be used in the field of inviting a group of investors and ideas, the result of this action will be the extensive connection of users from all parts of the world because this industry also needs to be updated and use this up-to-date and global phenomenon.

How does ATA work?

First, we have set up an efficient team to balance the price, and we will use it to create an equality system of buying and selling, and our users can use their tokens for the projects of the **ATA** team and profit from the projects. to receive (These projects are in the field of production, industry and growth of new ideas and new markets) This will happen when creating a dedicated token wallet that will be presented on a specific date. This idea will bring many investors with us because many users are looking for new income conditions that have the relative security of capital preservation that many security points and features have been incorporated in the blockchain technology, which, if used correctly, will make the blockchain one of the most secure technologies in the world in terms of security.

3- Why do we need ATA project?

ATA approached the creation of our community from a unique perspective.

"We believe through the power of collectivede centralization we can build

Something stronger than a centralized team ever could create.

A community - run token is nothing with out the united individuals who giveit

Purpose."

From the early days of ATA , we became knownas the SE2GOLDEN team , bothamongst

Our selves and across the countless other platforms . This wasn't just a name .

For many it became part of their username , their handle , and their avatars/profile

Pictures which they switched to our adorable **ATA** sporting a beret.

In principles:

1.We started from zero , with zero . It's the spirit of our project to create something Out of nothing.

2.We They were a Fresh team of developers , designers , moderators , marketers , Idea makers.

When you joined the **ATA** ,from any where in the world ,
you found where your

Talents could be used best , and got to work.

3.We are proud of where the **ATA** originated and equally
excited for our Future .

Our founder,SE2GOLDEN ,chose to start from nothing ,
and gave direction .

Starting with nothing means everyone has to bring
something to the table.

The holders and believers in our **ATA** team have been the
sour ceofallour success.

You and fellow holders , admins , and most of all ,
friends.

THANK YOU . You are the **ATA** team , and we salute you.
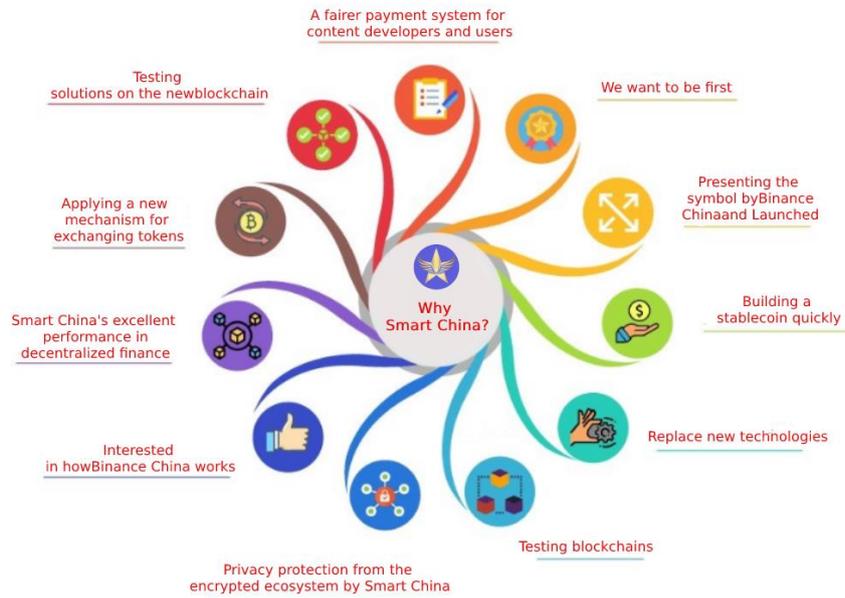

Why have we chosen Smart China?

Binance Smart Chain is the fastest growing blockchain!

The crypto ecosystem is a safe and supportive haven for progress and innovation. Started as a crypto exchange, Binance developed its own blockchain, Binance Smart Chain, which quickly became the premier blockchain network for developers.

The reason behind the development of Binance Smart Chain is to solve the rising costs of Ethereum gas (the fuel of the Ethereum network), where it offers faster, scalable and cheaper transactions.

Binance Smart China, the largest blockchain network of Binance and parallel to Binance China, was launched in 2020. China's Binance decentralized exchange is also the most widely used decentralized application. In this article, we explained 11 reasons for using Binance Smart China.
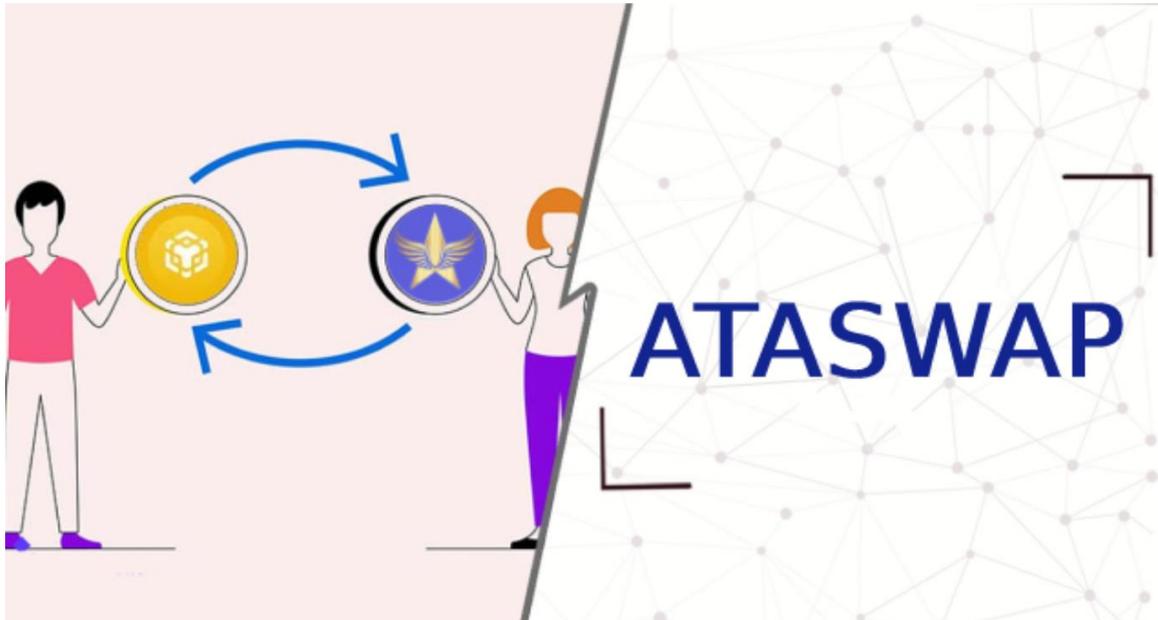

Speed, security and user-friendliness, complete control over financial resources, a fairer payment system, how Binance China works, the possibility of democratizing the policy making process on the network and a great blockchain for decentralized finance .

THE VISION OF ATASWAP

ATASwap aims to provide a secure place to trade your valuable cryptocurrency while remaining decentralized. We strive to create the best eco-system and attract those who are interested in it. The ATA team asks ideas for a better functioning system every day in order to learn about new ideas. We are loyal to our owners and we try to make them more interested in us. to be Our unique technonomics, solid design, technical execution, and growth driven by our good fashion patterns reinforce the strength of the platform and ultimately provide residual benefits to the ecosystem.

ATASWAP

With the increase in the use of swap in digital currency, there are many platforms that have the ability to swap, including **ATA**, and users can swap it on these platforms. Token exchange platforms provide a safe and convenient gateway and our fans can do all **ATA** exchanges through wallets. Depending on your wallet's capabilities, you may not need to transfer **ATA** tokens to a digital exchange service or exchange before using Quick Exchange.

You should know that there is more than one way to climb. After the release of **ATA**, we have become a decentralized system. ATASWAP will grow and stand out. We will apply all our efforts and knowledge in this field. What is at first may be simple, but we will update in different stages until what is in the future. What will happen will be reserved for us and **ATA** enthusiasts.

ATA TOKEN

ATA was established on 29.12.2022 and we simply wanted to start, but we have serious and classified plans for it.

ATA multiplied by PANCAKE SWAP without fuel and total supply: **500,005** value

Market: (includes locked, no fuel) **972,174,618,140**

The dollar is done. We allow the enthusiasts to keep it in their wallets and we try to preserve its value because **ATA** is for developing and creating platforms for production and ideation. Currently, we have many enthusiasts in **SE2 GOLDEN** who There are idea makers and investors and we will distribute among them first. We want to keep the price of each unit equal to the dollar, which is done despite our powerful team.

We want to go the way that no one has gone before and has not used its platform.

THE FUTURE OF ATA

FUTURE DEVELOPMENT

THE FUTURE OF ATASWAP . FUTURE DEVELOPMENT . To assure the longevity of ATA and the , 17 % of all per Block will be allocated to a multi - signature activated Dev wallet . This wallet will then be split in half .

When you BURY (Stake) tokens:

The ATA Swap Liquidity are:

These pools will then distribute rewards proportion ally to holders

Developers : 125,001.25 ATA (361,419.027175)
Airdrop : 95,000.95 ATA (274,678.460653)
Market : 95,000.95 ATA (274,678.460653)
Devel opment : 85,000.85 ATA (245,764.938479)
OG Admin : 100,001 ATA (289,135.22174)

RUFFMAP

RUFFMAP allows us to quickly realize what we presented in 2022 with the help of the expert team and to inform our owners and followers of our goals, but due to the competitive environment, we cannot publish it and only one We publish an overview of it.

Our goals are more than what is said in these materials and the important thing for us is to achieve a successful product and a long-term project in the global markets, which is potentially a program in reality.

CONCLUSION

An idea was shared from the team and it was a seedling that we planted and grew in that bed, but can it be grown without an expert team? Funding and paying attention to the shortcomings of the market and something that meets the goal, as well as defending the brand and creating security are considered in the first step of the project, and achieving this goal gave us a broad perspective, what we should pursue is success between There are great currencies that exist in the market and this is only with continuous effort and extensive knowledge. Of course, it should be noted that we must strive for our goals and provide security and peace of mind to our holders, because what makes us more enthusiastic is our followers. The motivation for success is what we receive from them.
